Kubu

Be sure it's secure.

About Kubu

How many times have you thought...
Have I locked my door?
We've all been there!

With Kubu you'll never have to worry if your doors are unlocked again.

Kubu uses smart and simple technology to monitor your locks in real-time. You'll be able to check the status of your door no matter where you are, at any time of the day, right from the Kubu app on your phone.

With Kubu, say goodbye to uncertainty and hello to peace-of-mind.

Be sure it's secure

What does the Kubu App do?

It lets you see the status of your door (locked/unlocked)

Get notifications with every turn of the key.

From any place in the world when connected to the internet.

You can schedule notifications when you want.

At any time, day or night.

It shows the history of your doors.
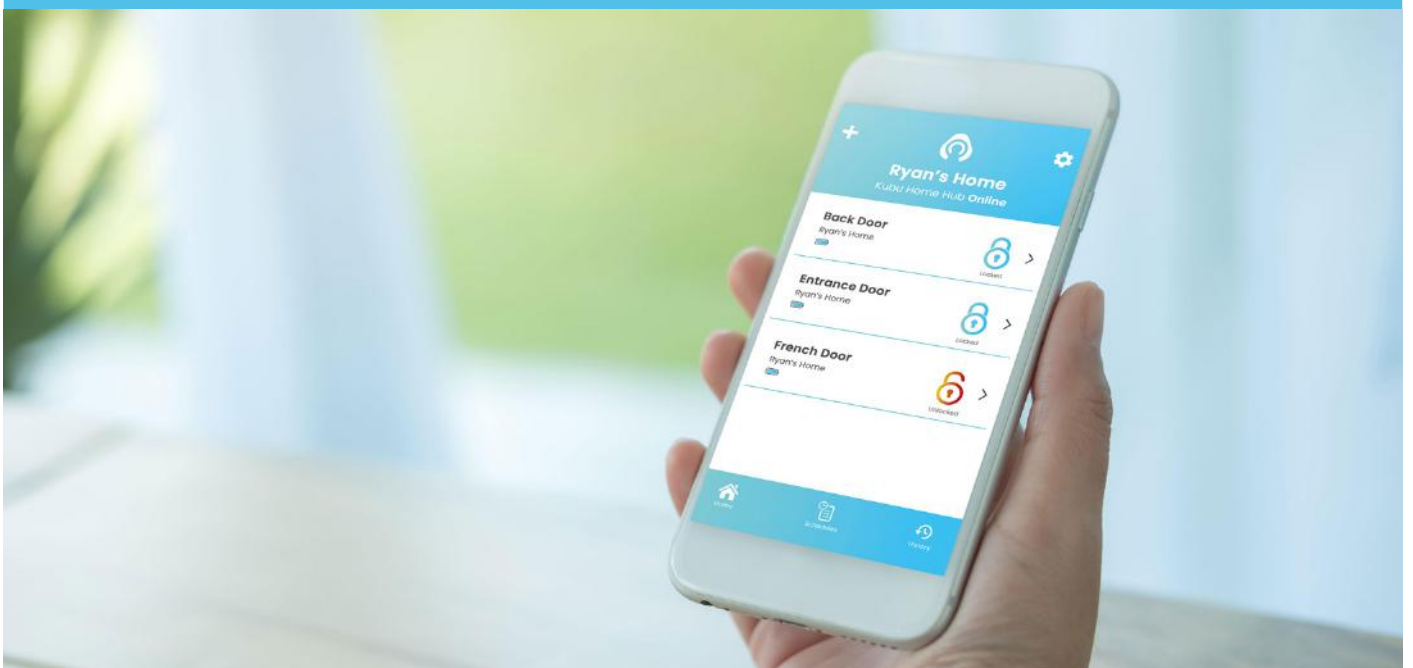

On all the doors in your home.

You can share your door with family and friends.

On all the homes that you look after.

Its perimeter feature helps to prevent you from leaving your home unlocked.
Installation & Setup

You will need doors with the Kubu Equipped Lock installed before you can become fully smart and connect your Kubu Home Hub, Door Module and App. Once you've got your doors, the set up is quick and easy.

Purchase your Kubu Home Hub and Door Module online

Fit the Door Module into your existing Kubu Equipped Door Lock

Plug in your Kubu Home Hub and connect to your wi-fi

Download the Kubu App and set up your doors

Kubu perimeter notification

How does the perimeter notification work?

As you walk away from your house and disconnect from your home wi-fi, Kubu will send you a notification if your doors are unlocked.

If you have an Apple iPhone, your phone will check every 2-3 minutes to see if you have disconnected from your home wi-fi.

If you have an Android phone, it will automatically disconnect from your home wi-fi when you get far enough away to break the connection.

Whether you're rushing out of the house to work or taking the kids to school, Kubu will prevent you from getting too far away from your home with your doors unlocked.

With the perimeter notification reminding you that you've left your door unlocked, you'll simply be able to turn back home and lock your door again.

Receive real-time notifications

With Kubu, you will always know the status of your door, whether it's locked or unlocked. No matter where you are, you can receive notifications right from the Kubu app on your phone, when connected to the internet.
Kubu allows you to track activity and receive real-time notifications whenever someone enters and exits your home, so you'll always know when someone is coming and going.
Set schedules

The Kubu app allows you to set schedules for any time you want.

Simply pick a day and time when you'd like to be reminded of the status of your door and Kubu will send you a notification to let you know whether it's locked or unlocked.

If you'd like a reminder that your doors are locked at night, or if you want to check the kids have locked the door when they've come home from school; simply set up a schedule in the app and Kubu will send you a notification at that exact time and day.

Check back through your history

Kubu allows you to check back through all of your door history. The app gives you a three month log of whenever someone has locked or unlocked your door.

If you get broken into, you will be able to identify the time and date, and see if your door was unlocked at the time of the break-in.

Share Your Door

The Kubu App allows you to share doors with your friends and family, so everyone can benefit from knowing if their doors are secure.

Through the Kubu app, you can share your doors with up to four members.

For example, if you want to remind an elderly grandparent to lock their doors at night, simply ask them to share their doors with you. This will then enable you to see the status of their doors.

The '*share your door*' feature allows the whole family to have peace-of-mind.

The Kubu Home Hub

The Kubu Home Hub also acts as a visual indicator, so you can check whether your doors are locked or unlocked, simply by looking at the hub.

When the hub glows blue it indicates all of your doors are locked. If the hub glows orange, at least one of your doors is unlocked. You can then check the Kubu app and find out which door is unlocked.

Kubu Equipped Door Lock Guarantee

The Kubu Equipped Door Lock has been designed and developed to work in perfect combination with the Kubu Home Hub, Door Module and App.

You have the choice if you'd like to upgrade and make your door smart, and it's so simple, you can even fit Kubu yourself!

Why is the Kubu Equipped Door Lock so secure? It delivers the UK's largest hooks and centre dead bolt at 25mm, which makes for greater compression and security on a closed door. The Kubu Equipped Door Lock easily passes PAS 24 for security and is Secured By Design accredited.

The Kubu Equipped Door Lock automatically comes with a 10 year mechanical warranty.

However, if you want extra peace-of- mind, you can activate an additional 10 year security and £1000 guarantee. Meaning, if you get broken into due to a lock component failure, we will refund you up to £1000 on your home insurance excess. This additional guarantee can be activated online at: www.kubu-home.com

Amazon Alexa Integrated

Kubu is not just a stand alone smart device, it integrates seamlessly into the home by communicating with your Amazon Alexa. You can easily add the Kubu skill to your Amazon Alexa account and be sure you are secure by simply asking a whole host of questions;

"Alexa, ask Kubu if my doors are unlocked."

"Alexa, ask Kubu for the status of my front door."

"Alexa, ask Kubu when Front Door was last unlocked."

Your Life with Kubu

Your home security is incredibly important. We all lead busy lives where it's easy to forget simple every day actions like locking your doors.

Kubu is a smart and simple solution that will give you and your family guaranteed peace-of-mind.
