ULTION | NUKI[.]

Smart locking
For British doors.
To British Standards.

www.ultion.co.uk/ultion-nuki

Introducing the Ultion Nuki.

The result of Ultion and Nuki working together is more than a smart lock. The specially designed Ultion lock and handle bring Nuki smart functionality to UK doors, including PVC and composite doors, with a security level found only with Ultion.

*"of all the smart locks we have tested
Ultion Nuki is by far the best"*

Trusted Reviews

"Best Smart lock for most homes"

Good Housekeeping Magazine

*"Ultion Nuki will get you the most
secure lock and the least disruptive
installation process"*

Saga

*"unlike most rival smart locks the
Ultion Nuki doesn't change the
external handle"*

Tech Advisor

*"Simple to fit, works on most doors
and make locking and unlocking
your door effortless"*

T3 Magazine

*"The Ultion Nuki is a difficult
product to fault."*

ULTION | NUKI

**Unlock from
anywhere.**

Ultion Nuki is the smart lock designed exclusively for UK doors. Manage your door lock through your preferred smart home platform, our free app or your Ultion door key.

ULTION | NUKI

Keypad. Keyfob. Your finger. Your key.

Being smart gives control from your phone, or perhaps you prefer our Bluetooth keyfob and our wireless keypad with fingerprint recognition. Whichever way you go, you still have the comfort of a key.

It'll see you coming.

Ultion Nuki can be set to unlock your door when you arrive home without even having to reach for your phone, and then lock a few minutes later. Like an invisible doorman!

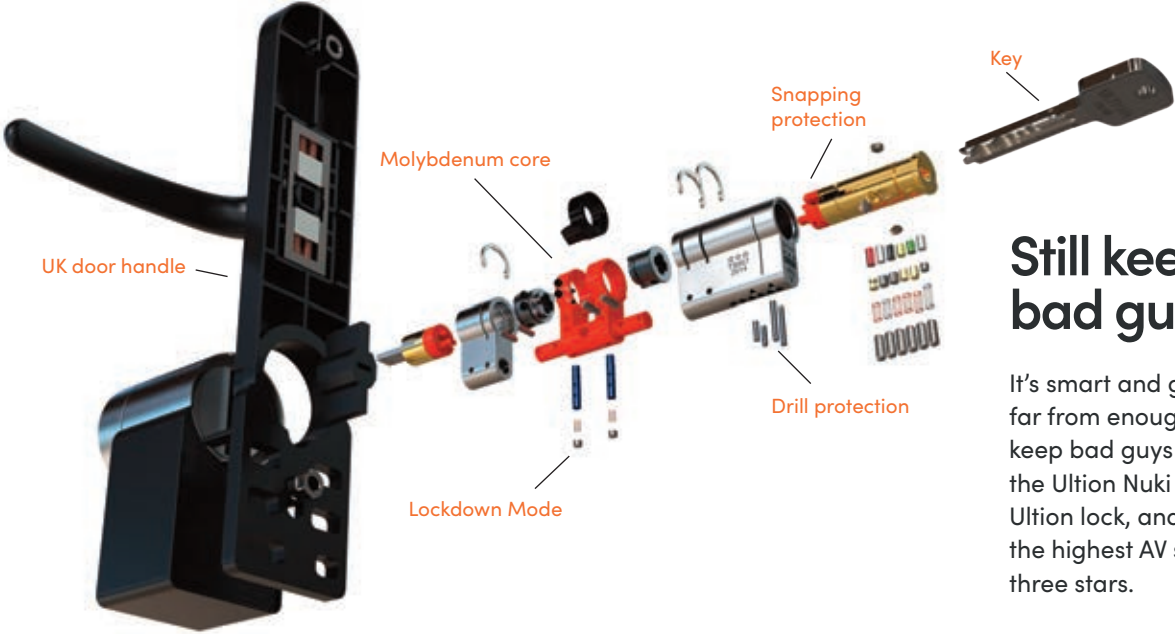

The installation kit.

Fitting Ultion Nuki is so easy it doesn't come with fixings. The three screws in your current handle and lock are all you need. It's an out and in job.

Keeping up appearances.

Kerb appeal is important. Which is why with Ultion Nuki you can keep your current outside handle, or choose from 7 colours of our outdoor handles.

Still keeping the bad guys out.

It's smart and gorgeous, but that's far from enough. Our priority is to keep bad guys out. The heart of the Ultion Nuki is a 3-star PLUS Ultion lock, and the Nuki unit has the highest AV security rating, with three stars.

Plays with everyone. Or on its own.

Control your Ultion Nuki smart lock from any of these apps.

 Ultion key	 Amazon Alexa	 Apple HomeKit
 Google Home	 Ring Doorbell	 Control4
 IFTTT	 AirBnB	 Nuki app
