Make it a smart door	70

If you are looking to transform your property, our range of composite doors are the ideal choice. With a great range of traditional and contemporary styles, colours, furniture and glass, you can design the perfect focal point for your home.

Your door will look stunning for years to come, manufactured from a tough GRP surface in either a woodgrain finish to replicate timber or a smooth/etched finish to replicate aluminium. The inner core is manufactured from high density polyurethane foam, offering exceptional thermal efficiency and helping to reduce energy bills.

The safety and security of your loved ones and belongings is a key factor in your purchase and you can be confident that, as standard, our doors are manufactured with leading hardware which will ensure your new door does just that.

This brochure is designed to give you ideas and inspiration in creating your new door. Hardware positioning and glass designs may vary depending upon technical specification and finished size of your manufactured door. Please be aware that your door may not look exactly like the door you have chosen in this brochure.

A more secure home

Your front door plays a huge part in the protection of your belongings and loved ones. Our doors have been designed to exceed even the most stringent of expectations and are manufactured with leading security and lock mechanisms to give you complete peace of mind.

Security of valued possessions and protecting loved ones are the main priority of any homeowner. Our composite doors have been designed to exceed even the most stringent of expectations. This is why we have incorporated a number of security features as standard.

- High performance multipoint locking system, set for smart technology. Your lock will be Kubu equipped, meaning you can easily transform your door to a smart door at any point.
- A neat and unobtrusive 2D-C hinge available in a range of colours for your door. With the lateral adjustment of +/- 3mm, it has a high load carrying capacity of 40kg, preventing the door from dropping.
- For the ultimate security protection our doors are manufactured with the Ultion Diamond Secure Cylinder.

Optional Upgrades for your door

AV4 also available on heritage lock

Upgrade to an automatic locking door (slam shut), this lock negates the need for a lever/lever door handle. You just pull or push the door closed with the bar handle or escutcheon and it automatically throws the hooks and dead bolt, making your home secure. When leaving your home or going to bed just simply turn the key to deadlock everything into position.

Please note Secured by Design not available on Kubu

Ultion Nuki

An innovative new lock to transform your door to a smart door, which can be locked with your smartphone or watch.

Secured by Design

For the ultimate in security, simply specify Secured by Design (SBD) to upgrade your door to this coveted standard.

Complete Peace of Mind

For enhanced security and peace of mind, the coveted police-led Secured by Design can be easily achieved across our range of composite doors.

Specifying 'Secured by Design' on your order ensures your door will be manufactured by our fabricator Glazerite UK Group Ltd to the ultimate security specification for complete peace of mind and protection of your home.

ULTION

BECAUSE IT STAYS LOCKED

Millions of doors in the UK can be opened quietly in under 10 seconds with normal tools. Even the most secure multi-point hook mechanisms are disabled when the cylinder lock is snapped.

Still protects when the key is inside the lock

Something many of us are guilty of is leaving the key in the lock on the inside. Even with the most snap secure locks, leaving the key in the lock can completely remove any snap protection you thought you had. But not with Ultion!

Attack forces lockdown mode

The moment that Ultion detects forced entry it activates an attack lock directly into the central cam - this is 'Lockdown Mode'. Even if the most determined intruder gets past Ultion's two sacrificial sections they won't get to attack lock because it is protected deep inside a solid molybdenum core and secured with a dedicated retaining pin. When Ultion is in lockdown mode your home and family are safe.

This is why we have chosen to incorporate the Ultion Diamond secure lock with all of our composite doors. When the Ultion detects attack, a hidden lock automatically engages. Even in lockdown mode it stops the intruder from opening your door. Even after the failed attempt, your door can still be opened and locked from the inside.

The Ultion has been rigorously tested, nothing has beaten it.

For more information about the benefits of Ultion visit: www.ultion-lock.co.uk

STOPS 6 ATTACK METHODS

- Drilling
- Picking
- Bumping
- Snapping
- + Twisting
- + Thermal

A much warmer home

The choices you make for your new door such as glass options and style will impact the thermal performance of your door. Composite doors are generally much more thermally efficient than timber or PVC.

The warm foam core gives the door a 'U' value that meets current building regulations and keeps your home lovely and warm.

Our full door range complies with Document L and the requirements of the current Building Regulations.

Design your perfect door

1 Style and Colour

The first decisions in designing your new front door are deciding on the style and colour. We have a great range of traditional and contemporary door styles in a wide range of colours or colour match to any RAL.

2 Glazing options

The glass you choose is as important as the door style and colour. With a wide range of options available in contemporary and traditional styles you'll be able to create the perfect focal point for your home.

3 Furniture options

The furniture you choose gives your door its own individual look. Our furniture is high quality, assuring long term performance and security of your home. Your furniture choices can make a real statement.

Traditional Door Styles

Our traditional door styles are designed to replicate the most popular timber doors with a realistic woodgrain embossing in the surface. Whether you are enhancing the entrance to a period home, modern townhouse or a cottage, there is a style to suit the property and your taste.

Standard Colours

A range of 9 external colours with white interior as standard. Coloured both sides is a cost option.

PAiNT allows us to colour match anything

Yes. Anything.

With our high-performance paint technology we can offer any colour door you desire.

PATiNA

An exciting range of 6 patina colours are available exclusively on the Monza II, Eaton, Knightsbridge, Tatton, Gleneagles, Oulton, Grove and Kings door styles.

Premium Colours

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, please enquire about a colour booklet.

*Some RAL colours containing luminous elements are unavailable

Decorative Glass Options

Decorative Glass transforms doors and makes a personal statement. We offer a range of styles to suit all budgets and tastes from contemporary styling to traditional choices. All our decorative glass is manufactured to the highest possible standards.

Traditional

4 Bevel

A simple glass design combining 4 clear bevelled glass squares and blackened coming that allows the light to flood.

Artisan

Striking and flowing elliptical shapes join an array of crystal clear diamond bevels to create a dazzling effect. Glue chip surrounding textures provide a perfect contrasting finish.

Astoria

An Edwardian era design created using a combination of rich coloured glass of varying texture. Encapsulated inside a triple glazed unit to combine traditional leaded glass with 21st Century performance.

Athena

The Athena gracefully combines brilliant cut lines and a clean sandblast finish. The understated half glazed model is a great option as a simple glass design for a back door.

Belgravia

A Victorian inspired repeat design with a delicate star motif set into a diamond pattern. The combination of etched and clear glass works beautifully well on this traditional timeless design.

Blossom

The beautiful bevelled heart and flower motif that is the centrepiece of this design is reminiscent of the style created by Scottish designer and architect, Charles Rennie Macintosh. The combination of the central motif with subtle patterned glass makes this one of our most popular designs.

Birchwood

The purity of this linear range draws its inspiration from Frank Lloyd Wright. Hints of cubism come together with leading edge glass technology to create a wonderful multi-textured finish.

Bloomsbury

An impressive large bevel cluster for those looking for a real feature statement. The Bloomsbury bevels will refract light beautifully and it's intricate detail is unsurpassed.

Carrington

Only available in our Camoustie door, this simple design uses traditional lead on a stipple backing glass. The diamond lead design sits proud to the outer pane when glazed into the door.

Casino

A 1930's inspired design utilising a range of clear glass textures to create a traditional design, particularly suited to inter-war properties.

Diamonte

Offset diamond clear bevels of the Diamonte design provide a particularly effect glass. The classic 1920's Art Deco motif design suits a wide range of door styles and architectural styles.

Empire

A detailed yet subtle design with a clear repeating design motif set against etched effect glass. The design incorporates clean zinc lines and traditional welded joints.

Traditional

Essence

A 1930's style decorative glass design combining a range of bold heritage colours and textured glasses with blackened coming and traditional soldered joints.

Geometric

An intricate design of crisp line and geometric shapes creates an eye-catching and unique design.

Grange

Our Bullion uses new techniques to create a very deep cut and impressive look. The circular bands create prisms of light and the design works very well in all styles of property.

Hathaway

Antique coloured glass is joined using a stunning black came and weld. All is encapsulated within the insulated unit for easy upkeep and to protect the design.

Indulgence Grey

The delicately shaped clear glass bevels glisten against the etched glass and create a look of understated and tasteful elegance.

Jazz

Inspired by the striking glass designs of the Art Deco period, the combination of glass textures, colours and flowing lines makes a bold statement and focal point for your door.

Lanesborough

Genuine coloured Spectrum Glass with blackened comes combine to create this stunning leadlight design, reminiscent of the Victorian era. With Lanesborough, you can now have all the benefits of traditional leadlights, with the performance and thermal properties you would expect in your door. **Available in 3 border colours: Amber, Blue or Green.**

Lavish

Our most traditional design, the Edwardian-era, Savoy glass option combines timeless green, amber and red colourways with on-trend fluted glass. The glass pieces are combined with a subtle black coming and encapsulated inside the glass unit.

Numbers*

A custom house number as a combination of clear and etched glass, is available on a range of standard glass sizes.

Optimal

Simulated divided lights create the look of individual panes of glass, whilst maintaining the performance benefits of a single double glazed unit.

Onyx

Beautifully handcrafted, the geometry of the brilliant cut recurring diamond motif, complemented by etch effect glass, bring privacy and security to your home.

Prestige

An ageless classic design with crystal cut bevels surrounded by a stipple backing effect glass. The design incorporates clean zinc lines and traditional welded joints.

Speakeasy

A unique custom house number design that allows you to put your stamp on this art deco-inspired piece.

Stardrop

Stardrop features delicate star drops in a sparse pattern giving a high level of obscurity through the etched texture of the glass.

Trio Diamonds

The finest quality of hand crafted decorative triple-glazing with a contemporary zinc finish. Luxury crystal cut bevels are sealed securely between 2 panes of safety glass to ensure good looks for many years to come.

*Numbers is a bespoke glass design, customised to suit your number/ letter requirements. We use a standardised font but the position and scale may differ according to the number of characters requested.

Tiffany

The Tiffany is reminiscent of designs used in the Victorian period. It uses a combination of vibrant coloured glasses against a background of softly rippled glass, with blackened cames.

Tranquility Zinc

This extremely popular model combines multiple cut bevels and striking backing textures all encapsulated with the insulated glass unit.

Artemis

Simple but extremely effective. The Artemis features an etched glass centre with a clear surrounding border. A strong option for both traditional and modern homes alike.

Aspen

This European style design is produced using high grade brushed stainless steel elements, that are bonded to the centre pane of glass. This combination provides a unique contrast.

Aztec

A luxury triple glazed option, featuring modern black came with hammered and stipple backing glass. This crisp design offers very high levels of privacy and allows lots of light throughout any entrance.

Cubic

The concentric squares inside a band of sandblasted glass is a subtle take on our Vector design. The Difuso glass ensures high levels of privacy whilst maintaining light transmission.

Deco

Exclusively commissioned by glass artisans, Deco uses a sophisticated frosted backing glass coupled with clear dividing lines that create a simple, elegant and highly desirable contemporary design.

Halo

A stunningly simple design, Halo is created using hand cut glass centres, that are polished and bonded within a clear border. The contrast offers a beautiful combination.

Luxor

Intricate laser cut brushed stainless steel is inset within each triple glazed panel and located with zinc joining strips. A heavily embossed backing glass offers good levels of privacy.

Palazzo

Inspired by the Prairie design movement, Le Moyne combines simple bevel glass pieces, lineal design and chevrons with on trend Fluted glass to create a stunning contemporary design.

Skyfall

Minimalistic yet full of modern impact, Skyfall features a combination of line and dot work to create an intricate and eye-catching design.

Mercury

A modern clear design laced into an etched backing glass with feature clear glass bevels. Mercury has a chic look with the glass bevels sitting proud to the outer glass pane.

Milan

A modern yet understated, sleek decorative door glazing. A blend of deep cut glass bevels and 'reed' highly obscure backing glass, combined perfectly to reveal an extremely alluring finish.

Panama

A sophisticated, contemporary design incorporating various glass textures with clear 'came' lines. Panama is a twist on lineal Art Deco period style.

Synergy

A modern twist on a traditional technique, Synergy combines hand-cut textured glass pieces, contemporary fused glass elements and polished zinc coming.

Tokyo

Tokyo is designed to focus on continental styling that suits the door that surrounds them. Contemporary, clean, simple etched designs that have proved very popular.

Vector

By combining Fusion glass tiles with small stainless steel elements and etched glass, Vector is a strikingly modern glazing option that is ideally suited for contemporary doorsets.

Victorian Border

Obscure delicately sandblasted glass combined with a crisp clear keyline gives Victorian Border a classical simplicity that is equally in place in contemporary and traditional doors.

Bold Pink

Inspired by Pop Art and developed into a decorative glass design unlike anything else available by our design consultant Jeyda, Bold Pink makes the ultimate statement.

Etch Lines

The simplicity of the clear lines against the etched effect gives a truly contemporary, minimalist look that combines privacy and design.

Graphite

Graphite is modernity at its best. Using the latest weld-free coming technology in stunning matt black, it is a modern take on decorative glass which will complement any contemporary door.

Hive

Hive has always been a icon of hard work, but more recently, promotes the idea of togetherness. It's roots have been based in Manchester for centuries – but can be seen across the UK as a symbol of nature.

Impression

Stunning black chrome coming combined with satin and grey bevelled glass pieces, Impression makes a striking statement encapsulated inside a double glazed unit for easy cleaning.

Kew

Kew combines intricate bevel work and soft water glass against a background of obscure etched glass. The central flower motif will make a stunning focal point for any door.

Lotus

Using the 'weld-free' chrome finish aluminium comes, combined with bevelled glass pieces and etched Millenium glass, Lotus is a truly stunning yet simple design.

Louisiana

The complex bevelled design combined with stunning textured glass creates a design with undoubted kerb appeal and 'Wow Factor'.

Metropolis

Metropolis is inspired by the Art Deco designs of the 1930's and, with its bold design and colourways, it looks equally at home in both traditional and more modern door settings.

Peak

From the unique Jeyda design collection, Peak is a fabulously unique design with an array of colours and textures combined with fine black lines.

Quantum

Combining our soft acid etched Difuso glass with the deeper texture of the sandblasted design creates a modern, striking glass perfectly suited for contemporary doors.

Skyline

A simplistic yet strikingly modern glass design, Skyline uses a combination of multi-width clear lines against a background of delicately sandblasted glass.

Skyscraper

Utilising flat black coming, on trend Fluted glass and simple bevelled glass pieces, the glass design features many of the elements featured in 1930's Manhattan architecture and now seen in the Industrial-Heritage style revival.

Soul Pink

The combination of delicate pink colours with varying levels of transparency, combined to create a modern design with a nod to the mid-century modern design style.

Spirit Pink

Bold colours and textured glass effects are combined with a beautiful, fused glass motif.

Space

Minimalist and stylish, Space is a modern geometric design of an etched glass design, offset with 3-dimensional black glass elements, encapsulated inside a triple glazed unit.

Tectronic

A truly contemporary design from our in-house designer Jeyda. The geometric shapes are combined with neutral greys and black glass colours to create a design unlike anything else on the market today.

Trinity

The multi-width lines of Difuso soft acid etched glass contrast beautifully with the deeper texture of the sandblasting to create a truly modern design.

Tron

Simple yet effective, Tron features a linear design that provides a minimalistic intricacy that delivers real impact in many door designs.

GLAZiNG

Clear or Obscure Glass Options

The majority of our door styles are also available in a standard range of 4 carefully Laminated Low-E patterned glass options or Laminated Low-E clear glass.

Minster

Minster pays homage to historic hammered glass and is most suited to period homes or more traditional door styles.

Stippolyte

The timeless appeal of this stipple effect glass makes it one of our most popular options. The surface texture offers very high levels of obscurity and the design suits most door and house styles.

Cotswold

A more heavily textured pattern resembling water cascading over a surface. It is one of our most popular patterns and is especially suitable for doors that require higher levels of privacy.

Satin

Satin glass is an acid etched glass that offers high levels of privacy. It is a very neutral finish similar to sandblast and is ideal for use in both traditional and contemporary doors.

Decorative Glass Availability

Our multitude of decorative glass designs and options, paired with a wide range of door styles enables you to personalise your door effortlessly.

Technical Specs

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with internationally recognised accreditations for performance, strength and thermal efficiency.

High Performance Secure Units

All units are made laminated to comply with Document Q. All units are manufactured to the EN1279 standard for quality of seal and life expectancy.

Thermally Efficient

All the clear or obscure glass units in our range have insulating features as standard. They are manufactured using low emissivity glass and the airspace is filled with Argon gas to give industry leading thermal efficiency.

In addition, we only use warm edge spacer systems.

Care & Maintenance

Your new door should keep you safe and secure for years to come, however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

- Door frames should be washed with warm soapy water.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.

Composite Doors

Features & Benefits

Performance

Composite doors offer truly appealing entrances for any home, with a high-definition smooth or grained GRP outer skin that will look stunning for years to come. The doors offer stability from the elements with protection against any water ingress. The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills in the home in comparison with any other door on the market.

Security

We take security very seriously. Our composite doors come with security features which stand up to current and future security standards, including PAS 24 in line with Approved Document Q. We recommend the use of multipoint locks (locks should always be engaged so the door is not left just on the latch) and security hardware including TS007 high security cylinders and handle combinations and TS008 letterplates. A slam shut lock option is available for a contemporary look.

Glass & Glazing

The visual impact of your door is enhanced by your choice of glass. Depending on the style, the units will be either a double or triple glazed unit. All glass units supplied are laminated & comply with Approved Document Q specification.

Colours

The high-performance paint technology used in manufacture means we can offer any colour door frame combination. This provides a fantastic choice for your home. In most cases the doors come in white as standard on the internal side, however, the options are endless, so get creative with colour and choose something different for the internal side.

Furniture decisions

Your furniture choices can really compliment and enhance the look of your door.

The Sweet range has curve appeal with edgeless long-lasting beauty as standard, whilst offering outstanding resilience and longevity.

With a 20 year anti corrosion guarantee* your new door will look great for years to come.

*Product must be registered with manufacturer.
